### Laird BD-A2V2MON Multi-Channel 6GSDI Coax & Audio Interface Cable for Blackmagic Video Assist Monitor

The Laird BD-A2V2MON-18IN is a premium multi-channel 6GSDI coax and audio interface cable designed for the Blackmagic Video Assist monitor. This professional broadcast interface assembly bundles staggered fanouts for ease of use in the field and reduces the strain on equipment connections. Features include 4K UHD 2 channel BNC connectors and 2 channel 3-pin XLR female to mini 3-pin XLR male connectors. Braided flexible cable tubing provides added protection.

### Features:

- 4K 75 ohm BNC connectors for proper 6G performance
- Transmits high-quality signals
- Staggered lead lengths: BNC 6/7-inch fanouts, XLR 8/9-inch fanouts
- High quality connectors provide strain relief
- Abrasion resistant flexible cable sleeve

### Specifications:

- Belden 23AWG video cable with bare copper conductor
- Canare multi-channel twisted pair microphone cable
- PVC cable jackets
- Neutrik 4K rearTWIST UHD BNC connectors with low return loss
- Neutrik 3-pin XLR connectors with chuck type strain relief and rubber boots
- Switchcraft mini 3-pin XLR connectors
