

HD4BNC

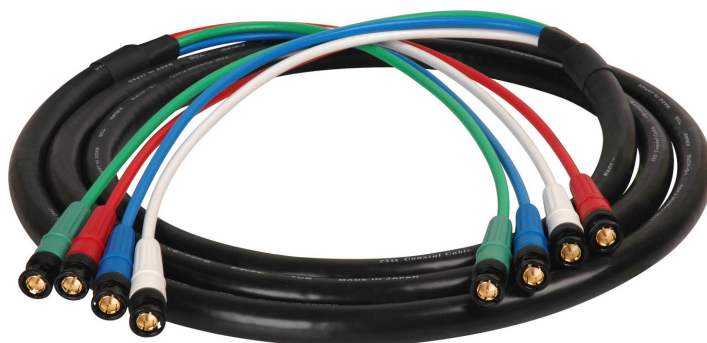

CABLE SERIES

Laird HD4BNC Canare V5-4CFB RG59 4-Channel 3G-SDI BNC Video Snake Cable

Manufactured with superior, low loss Canare V5-4CFB RG59 SDI rated digital coax cable and premium Trompeter connectors. Specifically designed for digital and next generation broadcast HDTV and SDI studios. Bundled in color coded channels, this cable helps keep work site neat and clean allowing single cable runs for multiple SDI channels. Can be used with confidence for super hi-res CG workstation interconnects and digital video studio installations. <2.2 nano second channel to channel differential time delay reduces phase errors in component video setup alignments. V5-4CFB cable is equivalent to Gepco VPM2000 and Belden 1505A.

Features:

- Color Coded Channels
- 75Ω BNC Connectors
- Bayonet Locking

Specifications:

- **Canare V5-4CFB 4-Channel 3G-SDI BNC Cable**
