

LCR-CAT5E-EC

CABLE SERIES

Laird LCR-CAT5E-EC Belden CAT5E Ethernet Cable with etherCON RJ45 on Cable and Reel Hub

Laird LCR-CAT5E high-speed Ethernet shielded Cat5e cables are designed with Belden 7923A cable loaded on a premium reel and are compatible with HDBaseT Ethernet equipment. This Laird Cat5e cable assembly features a smaller diameter and greater flexibility for easier handling. ProShell heavy-duty road-ready RJ45 connections with a patented strain relief provide integral latch protection and protective dust cap to ensure contacts stay clean and dry when not in use. A shielded RJ45 jack is conveniently mounted directly to the hub for easy deployment. Fiber ready reel maintains critical bend radius necessary for fiber optical cables. Suitable for 10BASE-T, 100BASE-TX (Fast Ethernet), 1000BASE-T / 1000BASE-TX (Gigabit Ethernet).

Features:

- Belden Cat5e Cable for Harsh Environments
- Lockable Neutrik RJ45 etherCON Connectors
- Hub Mounted Right Angle RJ45 Jack
- Rugged & Lightweight Fiber Cable Reel
- Small Diameter & Flexibility for Easy Handling Loaded on Premium Reel for Easy Cable Management

Specifications:

- Belden 4-pair, 24 AWG Bare Copper, PO Insulation PVC Jacket CMR Riser Rated Ethernet Cable
- ANSI/TIA/EIA 568.2-D Category 5e Termination: Neutrik RJ45 etherCON Connectors
